Press release | For immediate release

## THIS SUMMER, EXPERIENCE THE QUARTIER DES SPECTACLES WITH MUTEK

Montreal, May 18 2010 – Montrealers and visitors alike will be able to enjoy over 100 days of downtown outdoor events this summer. MUTEK kicks off the season by enlivening the urban space of the Quartier des spectacles from June 2 to 6.

“This year, the MUTEK festival is highlighting its presence in the Quartier des spectacles, indoors as well as outdoors. For its tenth anniversary last year, MUTEK used Montreal as an urban canvas for projects that illustrated the richness and diversity of digital creativity. Their efforts this year continue in that same vein, including an historic first for MUTEK: a free open-air evening concert, that will take place at the Place des Festivals, on Saturday, June 5. Thanks to MUTEK, not only for enhancing the Quartier des spectacles, but for improving the outdoor experience with art forms that Montreal is known for around the world” said Quartier des spectacles Partnership president Charles Lapointe.

The Quartier des spectacles is proud to collaborate with MUTEK to the recognition of Montreal as an internationally renowned destination for digital creativity and electronic music.
